

BELARUS

PK-12

- BELARUS PK-12 container semi-trailer is designed for loading, transporting and unloading of changeable containers by handling device of "multilift" type or unloading of container contents in "dumper" mode.

SPECIFICATIONS

Type	single-axis, four-wheeled
Lifting capacity, kg	12000
Operating weight, kg	5000
Basic drawbar tractor	2 drawbar category "Belarus" tractor
Max vertical load on tractor drawbar device from semi-trailer, kN	30
Travel speed, km/h:	
open road	25
forest road	10
Tread, mm	2120
Road clearance, mm	500
Dimensions, mm:	
length/width/height	7800/2735/3900
Tire sizes	24.0/50-22.5

HANDLING MECHANISM

Model	MPR-1
Type	hook multilift
Type of container	multilifting or unloading
unloading	tipping of transporting load
Canting angle of container at unloading, degree	48

CONTAINER

Model	BN-24.00.000
Capacity, m3	24
Weight, kg	2500
