

**PKM-5-40R**

SEMI-MOUNTED
for conventional plowing

**PKM-6-40R**

SEMI-MOUNTED
for conventional plowing

**PO-(4+1)-40**

SEMI-MOUNTED
turnwrest plough

	PKM-5-40R	PKM-6-40R	PO-(4+1)-40
Number of bases	5	6	5
Type of base	semidigger		
Operating width of base, cm	30-50		40
Base protection	Spring		
Plough operating width, m	1.5-2.5	1.8-3.0	2.0
Operating speed of travel, km/h	7-9		
Tilling depth, cm	27		
Possible capacity, ha/h	1.05-2.25	1.26-2.7	1.12-1.8
Plough dimensions, mm:			
length	7200	8200	5700/6950
width	2900	3300	2850
height	1520	1520	1710
Weight, kg	1830	2040	2530/2830
Distinctions of plough	Adjustment of base width		
Types of cultivated soils	Designed for tilling of agricultural weakly- and medium-stony soils with unit draft up to 0.1MPa		
Tractor drawbar category to which the plough can be mounted	2 and 3	3	3
Manufacturer	Minsk Gear Factory
